

# Solvo T95

## Product Description:

A water soluble turpentine based degreaser suitable for general degreasing where water washing of the object being cleaned is a requirement. Has powerful emulsifying properties leaving the washed part clean of any residue of turpentine solvent.

## Product Applications:

Suitable as a general purpose degreaser of metal parts, engines, heavily soiled equipment, floors etc. where water rinsing of the cleaned object is required.

Can be applied by brush, swab or used in a soak bath & is easily washed down with water once the degreasing has been completed.

## Features & Benefits:

- Powerful degreasing action
  - Removes heavy build-ups of oil, grease, tar.
- Readily water emulsifiable
  - Cleaner part can be rinsed with water after degreasing, leaving a residue free surface.

## Physical Properties:

Test	Units	Result
Appearance		Clear/light amber liquid
Density	g/ml	0.83
Emulsification (10% in water)		Stable for 1 hour
Flash Point	°C	32

## Health & Safety:

Solvo T95 is a turpentine based degreaser. It is recommended as with all industrial oils & cleaners that repeated or prolonged contact with Solvo T95 in neat or diluted form is kept to a minimum. At no time should neat or diluted Solvo T95 be disposed of into sewers. Disposal of Solvo T95, either neat or diluted into storm water drains or other waterways should always be avoided. If spillage occurs contact your local council authority or refer to the Syntol MSDS. For further advice refer to Syntol NZ Ltd. Phone (09) 634 6004.
