

Saw Mill Lubricants Range

Speciality Lubricants:

Syntol Saw Guide Oil:

Water emulsifiable lubricant for use on all high pressure air misting applicators.

- Excellent lubricity & cleaning characteristics of wood sap to ensure accurate cutting
- Water emulsifiable for applications requiring water diluted product.
- Anti-corrosion additives incorporated.
- Anti-fungal additives for control of fungi growth in feed lines etc.

Pack size available: 20 litres, 205 litres

Syntol Timber Finishing Oil:

Lubricant for all lathe & planner beds which machine all varieties of timber.

- Low residual oil content to minimize staining
- Anti-corrosion properties incorporated
- Excellent lubricity performance to ensure minimal wear & excellent lubrication of sliding surfaces.

Pack size available: 20 litres, 205 litres

Grinding / Cutting Fluids:

Syntol Aquagrind TC88:

Full synthetic grinding fluid for use on tungsten carbide containing material.

- Excellent anti-corrosion & low foam properties
- Inherently bio-stable
- Very low leaching of cobalt from Tungsten Carbide metal.
- Multi-purpose fluid for all grinding operations & metals including copper & copper alloys.

Pack size available: 20 litres, 205 litres

Syntol Aquagrind 750:

Synthetic grinding fluid for use on all applications including, centre-less & surface grinding & cylindrical grinding.

- Excellent corrosion protection
- Very good bio-stability & low foam properties.
- Can machine most metals including mild, hardened, & stainless steels, aluminium.

Pack size available: 5 litres, 20 litres, 205 litres

Syntol Aquagrind 890:

Premium quality fully synthetic soluble grinding fluid designed for more arduous grinding applications such as grinding tool or other hardened steels.

- Excellent corrosion protection.
- Low foam characteristics.
- Additional lubricity for enhanced surface finish & hardened & tool steels.
- Excellent bio-stability.

Syntol ProCut S38:

Semi-synthetic cutting fluid designed for all machining operations & metal types.

- Multi-metal, multi-operational extreme pressure fortified mineral oil based coolant.
- Bio-stability additives incorporated to provide excellent resistance to bacteria / fungi.
- Excellent corrosion protection & foam control.

Pack size available: 5 litres, 20 litres, 60 litres, 205 litres

Mineral Oil Lubricants:

Syntol Chainbar 150 Oil:

Virgin base oil based chain-bar lubricant.

- Applicable for all chainsaws, chain & slide lubrication as used in chainsaws & Saw Mills.
- Tackifying additives incorporated in minimize throw-off.
- Heavier viscosity to enhance lubrication properties.

Pack size available: 20 litres, 205 litres

Syntol Hydratek 32, 46, 68 Hydraulic Fluids:

Syntol Hydratek range of hydraulic oils are formulated from highly refined base stocks & blended to meet all relevant international specifications.

- Meets or exceeds: DIN51524, Part II: Cincinnati Machine p-68, P-69, P-70: US Steel 126,127: AFNOR NFE48-603 (HM): Vickers M-2950-S, I-286-S3: Denison HF-2, HF-0.
- Superior anti-wear & anti-oxidation properties ensuring longer oil drain period.
- Excellent hydrolytic stability enabling superior filtration performance.
- Excellent anti-foam & air release properties giving greater oxidation stability.

Pack size available: 20 litres, 205 litres

Syntol Gearlube 150, 220, 320:

Premium quality range of lubricants designed & formulated for requirements of GL3 industrial gearbox applications. Available in ISO grades 150, 220, & 320.

- Excellent extreme pressure (Mild EP) properties.
- Superior anti-corrosion, foam control & anti-oxidation properties

Pack size available: 20 litres, 205 litres

Rust Preventatives:

Syntol Cortek RP85:

Light greasy film rust preventative which possess excellent de-watering & corrosion protection characteristics.

- Provides 3 - 6 months protection of moulds when stored inside.
- Excellent dewatering properties eliminating spot rusting.
- Light carrier solvent for a quicker dry-time.

Pack size available: aerosol, 5 litres, 20 litres, 205 litres

Syntol Cortek DF87:

Premium oil based de-watering fluid which imparts excellent rust preventative properties on metal parts, & machinery.

- Oil based product enabling easy removal.
- Excellent dewatering properties
- Excellent rust protection, giving 3 -6 months protection when stored inside.

Pack size available: aerosol, 5 litres, 20 litres, 205 litres

Cleaners:

Syntol Super Ripper Degreaser:

Multi-use biodegradable water-based general purpose cleaner formulated for use on any hard surface.

- Excellent removal of dirt, oil, grease & soils.
- Multi-purpose cleaner for use on all surfaces including walls, floors, machinery, metal, plastics.

Pack size available: 4 litres, 20 litres, 205 litres

Syntol Solvo T95 Degreaser:

Solvent based degreaser water emulsifiable that is suited to all degreasing & subsequent water wash-off applications.

- Parts may be washed off with water after degreasing operation.
- Very effective degreaser & dirt removing properties.

Pack size available: 20 litres, 205 litres
